PROFESSIONAL SUMMARY:

Results-driven Full Stack Web Developer & Cybersecurity Professional with 5+ years' experience building and securing scalable applications. Skilled in PHP, JavaScript, Laravel, Node.js, React, MySQL, MongoDB, and AI tools, including prompt engineering, automation, and ethical AI practices. Proficient in REST APIs, MVC, Agile, NIST CSF, SIEM, IDS/IPS, and PII/SPII compliance. Dedicated to delivering user-focused, secure, and innovative solutions aligned with business goals. Open to hybrid and remote roles.

HIGHLIGHTS OF CORE COMPETENCIES:

- Proficient in full-stack development using PHP, JavaScript, Laravel, Node.js, React, and MySQL/MongoDB.
- Experienced in REST API integration, MVC architecture, and scalable application deployment.
- Strong expertise in cybersecurity frameworks, SIEM, IDS/IPS, and compliance standards (PII/SPII).
- Effective communicator with experience collaborating across cross-functional teams to achieve business goals.
- Dedicated to clean, maintainable code and agile methodologies using tools like Git, Docker, and Jira.
- Strong problem-solving, analytical skills, and attention to detail with a track record of impactful project delivery.

WORK EXPERIENCE:

Web Developer – Nature's Source, Mississauga, ON, Canada   **Jun 2024 – Oct 2024**
- Enhanced e-commerce functionality using PHP, Shopify, and secure coding standards.
- Implemented data migrations, security protocols, and resolved technical issues.
- Collaborated with cross-functional teams to deliver scalable solutions.

Web Developer – CoderKube Technologies, Surat, Gujarat, India   **Jan 2020 – Oct 2023**
- Developed backend systems using Laravel and Node.js.
- Built scalable APIs, optimized MySQL databases, and enforced security practices.
- Partnered with clients to align solutions with business needs.

Web Developer – FreshCodes Technology, Surat, Gujarat, India   **Jun 2018 – Dec 2019**
- Built secure web applications using PHP, HTML, and JavaScript.

- Enhanced functionality, usability, and security of applications.
- Performed system testing, debugging, and implemented role-based access controls.

EDUCATION:

- **Software Development Certificate Program** – University of British Columbia (May 2025 – Present)
- **Google Cybersecurity Professional Certificate** – Coursera (May 2025 – Jul 2025)
- **Google AI Essentials Certificate** – Coursera (Jun 2025 – Aug 2025)
- **Master of Science in Information Technology** – Veer Narmad South Gujarat University, India (Jul 2018 – Jun 2020)
- **Bachelor of Computer Applications** – Veer Narmad South Gujarat University, India (Jul 2015 – Apr 2018)

SKILLS:

- **Languages:** PHP, JavaScript, HTML5, CSS3, JSON, jQuery, AJAX
- **Frameworks/Libraries:** Laravel, CodeIgniter, Magento, Node.js, React.js, React Native, Express.js, Flask, Bootstrap
- **Databases:** MySQL, MongoDB, Oracle, SQLite
- **Version Control & Tools:** Git, GitHub, Bitbucket, GitHub CoPilot, VS Code, Docker, Postman, Jira, NetBeans, Adobe Dreamweaver, Sublime Text
- **Operating Systems:** Unix, Linux, Windows, LAMP Stack Servers
- **Methodologies:** Agile Development, RESTful API, OOP, MVC
- **AI & ML:** Generative AI, AI prompt engineering, AI productivity, AI-assisted coding, ethical AI, NLP basics
- **Cybersecurity:** NIST CSF, CIA Triad, Risk Management, Vulnerability Management, Incident Response, Security Controls, SIEM, IDS/IPS, DLP, PII/SPII

PROJECTS:

E-Commerce Platform Development – CoderKube Technologies
- Built a scalable e-commerce platform using Laravel with payment integration and secure authentication.

Custom EMS (LMS System) – FreshCodes Technology
- Developed Moodle-based LMS with REST APIs, content delivery, encryption, and RBAC.
